

BPSA 300

Brocade Professional SAN Administrator

Upcoming courses:

You can find our schedules on our website at www.networksynergy.com.au/training/scheduledates.html

Delivery & requirements:

Delivery will either be instructor led in a traditional classroom setting, or instructor led web based delivery in our virtual classroom. Participants will require pc/laptop and internet connectivity suitable for a virtual classroom.

Prerequisites:

Before taking this course, students should have working knowledge of:

- Six months experience with storage and storage area networks
- Knowledge of Fibre Channel fundamentals
- BASA 200: Brocade Associate SAN Administrator

As this is a Brocade certified course, we use:

- Brocade Certified instructors
- Brocade approved course material
- Brocade lab equipment

Overview:

This advanced training course provides students with the knowledge and skills needed to help them become proficient with advanced Fabric OS v8.0.1 features. Topics include Switch security administration, Fibre Channel-to-Fibre Channel Routing (FC-FC Routing), Fibre Channel over Internet Protocol (FCIP), Adaptive Networking, Access Gateway, Monitoring Alerting Policy Suite (MAPS), Virtual Fabrics (VF), Flow Vision, and Brocade management tools. Switch management tasks are performed using Telnet and Brocade Network Advisor v14.0.1

Objectives

- Configure Switch security
- Implement Brocade Fibre Channel-to-Fibre Channel Routing (FC-FC Routing)
- Discuss Brocade Fibre Channel over Internet Protocol (FCIP)
- Configure and use Flow Vision flows to track fabric activity
- Discuss virtual connectivity using NPIV and Brocade Access Gateway
- Configure advanced Monitoring Alerting Policy Suite (MAPS) features
- Implement Virtual Fabrics
- Manage advanced features using Brocade Network Advisor v14.0.1, Web Tools and the CLI
